

8.1.8 - Describe the objective methods adopted by the College to measure and certify the attainment of clinical competencies by BDS students/interns as stated in the undergraduate curriculum by the Dental Council of India.

The entire fraternity of faculty of RDCH has worked together in collective and concerted efforts to present the best in academic knowledge and skills through various fora on a regular, recurrent monthly basis such as the Clinical Skill Development program imparting clinically oriented, skill based learning for the Interns, Clinical Society Meetings and Clinical Forum for the Postgraduate Students and Undergraduate students.

Objective Structured Clinical Exams (OSCE) is held every month end for the CRRi intern students to evaluate the clinical progress and learning of our house surgeons.
