CODE OF ETHICS - IN RESEARCH

Rajas Dental College and Hospital is committed to observe, promote and assist in genuine academic research carried out by its staff and students. High quality, honesty and accountability are the main objectives of our code of ethics. In research and publication, ethics and plagiarism play a significant constituent role. It is often observed, that researchers claim others' work as their own, which will degrade the reputation of the researcher/

Institution and ultimately the authenticity of the research. This mandates the need for verification of research carried out by students/ staff before submission of their works in the form of Project reports. Seminar papers, Research papers, Research proposals and Dissertation work. Especially the research work in the form of papers/projects should go through the process of plagiarism check and has to be thoroughly assessed for their viability across the globe and needs to reach the highest success. Rajas Dental College and Hospital takes extra measures to ensure that the work is at par with National/International standards. The authors are made responsible for their research work carried out, presentation and results as expressed. The institution deplors and rejects the violation of code of ethics which is dishonest and immoral, infringing the copyrights act of intellectual property rights.

Plagiarism constitutes unethical scientific behavior and is never acceptable. Proper acknowledgement of the work of others must be always given. Further, it is the obligation of each author to provide prompt retractions or corrections of errors in published works.

ETHICS AND RESEARCH COMMITTEE

The Ethics and Research Committee is responsible for developing and monitoring policies and guidelines related to publishing ethics, in matters pertaining to possible violations and assisting with investigations of alleged violations. The degree of corrective action will be commensurate with the degree of plagiarism.

Disciplinary Action: The Ethics and Research Committee takes care of the issues and complaints regarding the plagiarism and will submit the report after thorough investigation and recommends the disciplinary action to be imposed within a period of 3 weeks from the day of compliant.
